

Traditional Space

Office sizes from 200 sq/ft - 8000 sq/ft
Multi-floor letting available upto 30000 sq/ft

At KPG we strive to cater for every business size and type. We understand that with some businesses comes the backing of a major corporation, with its own systems and services. So for this reason we provide the option of Traditional Office space.

The Traditional Office space we provide is simply office space without all of our added services. Our clients still have use of all our facilities, but are also able to move in their own systems and equipment for working.

Our Traditional Office agreements are highly bespoke to each separate business case. So we suggest meeting with us to discuss your requirements and viewing our business centre.
